

DERMACEUTICALS FOR MEN

SKINN Total Shave 100ml

Traditional agents used for shaving such as gel, foams, soap and oils are harmful, irritating, drying and increase the change of post shave irritation. Based on sound dermatological principles SKINN is specifically formulated exclusively for the needs of men's skin. TOTAL SHAVE is a soap free multifunctional moisturising cleanser rich in FDA and TGA approved therapeutic ingredients and is proven to moisturises, protect and reduce post shave irritation Shaving damages the stratum corneum reducing skin barrier function and skin hydration **TOTAL SHAVE** is rich in powerful anti-inflammatory ingredients and glycerin which prevents skin damage whilst shaving. Contains natural ingredients that improve razor glide, reducing skin micro and macro abrasions following shaving.

Features and Benefits

- Gentle, low irritant formula suitable for even the most sensitive skin
- Soap free – soap has a high pH (alkaline); this tightens and dries the skin
- Multifunctional – cleanser and shave cream in one
- Moisturises, protects and reduce post shave irritation
- Highly concentrated – a little bit goes a long way
- Prevents skin tightness following shaving
- Antioxidants, AHA's and Vitamins are often found in cleansers but are of little or NO benefit in **wash-off products** as these ingredients need to be on the skin for a certain period to have therapeutic effect.

GLYCERIN

- Powerful humectant glycerin locks moisture into the skin and prepares the skin for a smooth shave. Helps reduces razor rash.

ALOE BARBADENSIS

Aloe Barbadensis, a potent anti-inflammatory agent which repairs unwanted blemishes and razor bumps. • Hydrating, softening, healing, antimicrobial and anti-inflammatory properties

MENTHYL LACTATE

Menthyl lactate is produced from the natural ingredients menthol and lactic acid. Menthol has cooling refreshing and toning effects. The lactic acid strengthens the skin's own acid mantle.

CREAM SOAP FREE BASE
